A CULTURAL HUB

The connection with leading cultural institutions make it a unique and enviable cultural hub of various contemporary art and cultural events, cultivating a vibrant environment of artistic expression for all our students and teachers.

A PREMIUM LOCATION

Athens is considered as an attractive international destination. Its history and archaeological heritage, its current urban “arty” personality, geography and climate, political stability, low cost of living and general quality of life, make it an attractive destination to foreign students interested in musical studies, from neighbouring or other regions.

Moreover, Greece enjoys the positive benefits of being an EU & Eurozone country and naturally it represents the “safe harbour” country for much of the wider region.
